Forensic Science International

Volume contents

Volume 96 (1998)

No. 1

Identification of lipstick smears by fluorescence observation and purge-and-trap gas chromatography
Y. Ehara, Y. Marumo (Japan) 1–10

The mortality of released Finnish prisoners; a 7 year follow-up study of the WATTU project
M. Joukamaa (Finland) 11–19

Fatal chloroquine intoxication
T. Keller, A. Schneider, R. Lamprecht, R. Aderjan, E. Tutsch-Bauer, W. Kisser (Austria; Germany) 21–28

Opiate concentrations following the ingestion of poppy seed products – evidence for 'the poppy seed defence'
C. Meadway, S. George, R. Braithwaite (UK) 29–38

Increased complex formation of Gc globulin with actin in plasma from human cadavers
M. Osawa, N. Yukawa, T. Saito, X.-L. Huang, T. Kusakabe, S. Takeichi (Japan) 39–45

Asphyxia due to oxygen deficiency by gaseous substances
T. Watanabe, M. Morita (Japan) 47–59

Review paper

Methamphetamine — properties and analytical methods of enantiomer determination
D. Jirovský, K. Lemr, J. Ševčík, B. Smysl, Z. Stránský (Czech Republic) 61–70

Instructions to Authors 71–74

Nos. 2–3

The death of King Charles XII — The forensic verdict
C.O. Nordling (Sweden) 75–89

Sudden death in cases with anomalous origin of the left coronary artery
B. Madea, R. Dettmeyer (Germany) 91–100

Fatal gastrointestinal haemorrhage due to coexisting primary aorto-enteric and aorto-colic fistulae. Complicating untreated atheromatous abdominal aortic aneurysm
P.S.L. Beh, P. Dickens (Hong Kong) 101–106

A preliminary investigation into postmortem changes in skinfold impedance during the early postmortem period in rats
D. Querido (South Africa) 107–114

Alzheimer changes are common in aged drivers killed in single car crashes and at intersections
M. Viitanen, K. Johansson, N. Bogdanovic, A. Berkowicz, H. Druid, A. Eriksson, P. Krantz, H. Laaksonen, H. Sandler, P. Saukko, I. Thiblin, B. Winblad, H. Kalimo (Sweden; Finland; Sweden) 115–127

Anatomical reconstruction of fragments of burned human bones: a necessary means for forensic identification
G. Grévin, P. Bailet, G. Quatrehomme, A. Ollier (France) 129–134

The prevalence of dextropropoxyphene in autopsy blood samples
U. Jonasson, B. Jonasson, P. Holmgren, T. Saldeen (Sweden) 135–142

Ejection patterns of shot residues made from 9 mm Parabellum gun, 9 mm short gun, .38 revolver and 7.62 mm Cetme rifle
L.F. Carreras, L.A.M. Palma (Spain) 143–172

Nuclear morphometry of the myocardial cells as a diagnostic tool in cases of sudden death due to coronary thrombosis
G.A. Lazaros, K.S. Stefanaki, I.G. Panayiotides, M.N. Tzardi, I.G. Vlachonikolis, P.E. Kanavaros, G.S. Delides (Greece) 173–180

The manner of death among fatalities where dextropropoxyphene caused or contributed to death
B. Jonasson, U. Jonasson, T. Saldeen (Sweden) 181–187

New forensic tool for the identification of elephant or mammoth ivory
F. Burragato, S. Materazzi, R. Curini, G. Ricci (Italy) 189–196

Morphological changes in traumatized skeletal muscle: The appearance of 'opaque fibers' of cervical muscles as evidence of compression to the neck
N. Tabata (Japan) 197–214

Bruising in non-accidental head injured children; a retrospective study of the prevalence, distribution and pathological associations in 24 cases
G.S. Atwal, G.N. Rutty, N. Carter, M.A. Green (UK) 215–230

Diary of future events 231–232
Volume contents 233–234
Author index 235
Subject index 237–239
